JET FLEET INTERNATIONAL ADDS MEDAIRE INC. AS ALLIANCE PARTNER

TEMPE, AZ - LOS ANGELES, CA (June XX, 2004) - Jet Fleet International (JFI) and MedAire Inc. (ASX Code: MDE) have announced today that MedAire has joined JFI as a JFI Alliance Partner. JFI's members will instantly benefit from discounts on MedAire's MedLink™ remote emergency assistance services.

MedAire has been providing immediate 24/7 telemedical assistance to the aviation industry since 1986. Today, through its MedLink services, those resources are put to use on more than 70 commercial airlines and hundreds of corporate flight departments all over the world. MedAire's services are considered so vital, that even the world's top jet manufacturers (Boeing, Bombardier, Embraer and Gulfstream) make them a standard feature onboard every aircraft sold.

"Safety and preparing for any emergency have been a cornerstone of my flying career." said Bob Hoover, one of JFI's founders. "I believe that every private and corporate aircraft owner should be able to benefit from MedAire's services. With this new partnership MedAire will be an affordable and viable resource for every flight department - regardless of its size."

JFI was founded by both aviation legend R.A. "Bob" Hoover and Eugene "Gene" Cernan, who was commander of the Apollo XVII lunar mission and the last man to walk on the moon. The company negotiates preferred fleet pricing with aviation suppliers on behalf of hundreds of private and corporate jet owners worldwide. JFI's business model resembles those of large fractional jet operators and commercial airlines who pay lower prices for products and services because of their large volume purchases.

"We are excited about our new partnership with Jet Fleet International." said Joan Sullivan Garrett, MedAire President and CEO. "This relationship allows us to immediately extend the life-saving benefits of our emergency response service to even more flight departments at rates that fit into increasingly-tight operational budgets."

Under the partnership agreement, JFI has negotiated preferred pricing on MedAire's MedLink Service and training to its members. The JFI discount for MedAire depends on the service and aircraft type. Currently, there is no cost to become a member of JFI.

ADD 1

About MedAire, Inc.

Established in 1986, MedAire offers fully integrated health and security solutions including remote emergency assistance services, evacuations, training and web-based education programs, specialized resources such as medical and security kits and a network of western-standard medical clinics in Asia.

MedAire provides services to international business travelers and expatriates, commercial airlines throughout the world, corporate flight departments, government agencies, military and maritime operators. MedAire, listed under MDE on the Australian Stock Exchange, can be found on the Internet at www.medaire.com.

About Jet Fleet International

Jet Fleet International was founded in 2003 by former astronaut Eugene "Gene" Cernan and aviation legend R.A "Bob" Hoover. JFI negotiates preferred fleet pricing with aviation suppliers on behalf of hundreds of private and corporate jet owners worldwide. The JFI Alliance Partners consist of contract fuel programs, pilot training, flight planning, weather data, safety auditing/consulting, Enhanced Vision Systems, emergency medical equipment/services, satellite communications, pilot headsets, aircraft window repair and replacement, avionics upgrades and aircraft maintenance. The company has offices in Los Angeles and San Jose, California. More information on Jet Fleet International can be found at www.jetfleetinternational.com.
